

1. Where does your project currently stand?

I have completed my interviews and sketches and have been working on implementing the level 1 goals for it.

2. What is your plan for completing the project by the deadline?

I will work on the level 2 and 3 goals for my project and have them in a completed state before Friday, and I'll have the level 4 goals completed by the end of the day Friday.

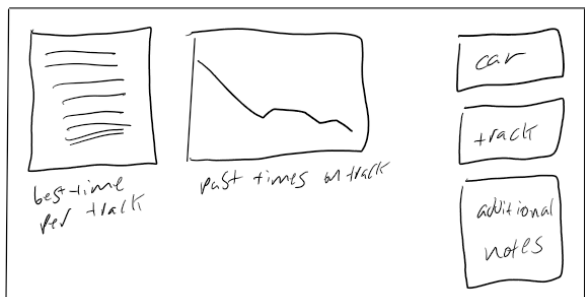

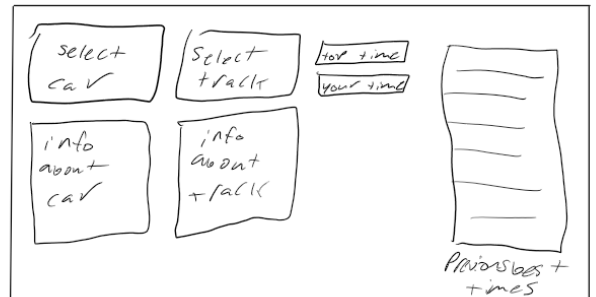

Interview Questions:

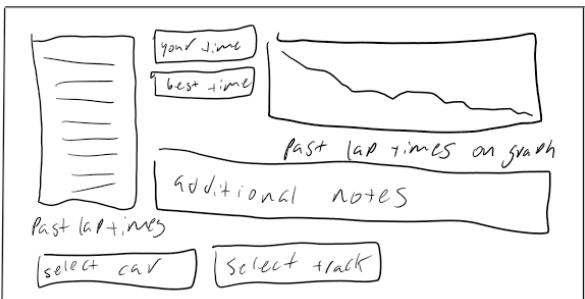

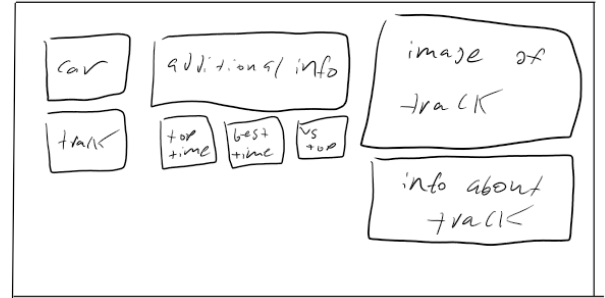

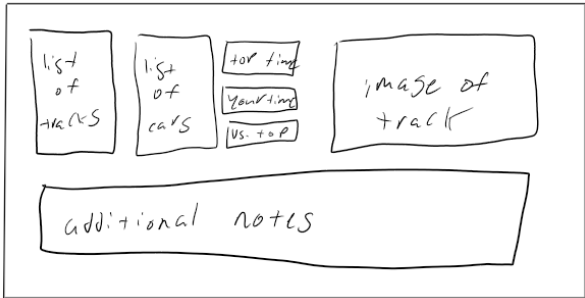

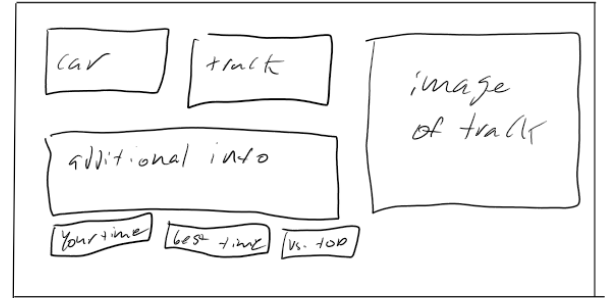

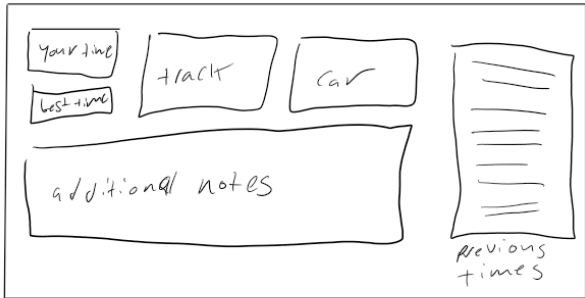

1. How often do you play racing games, if at all?
2. Do you track your lap times in racing games? If so, how?
3. What would you want to get out of an application for tracking racing statistics?

User Needs:

1. Needs to be simple to use and understand
2. Needs to be able to record data with different cars and tracks
3. Needs to have a space for additional information about the entry
